☎ (647)-355-4049 | ✉ ilyayevm@mcmaster.ca | 🌐 michal-ilyayev.github.io |  in/michal-ilyayev

Motivated Computer Science student with experience in Python, web development, and UI/UX design. Led large, award-winning community projects and earned multiple recognitions including Schulich Leadership, EREA, and the President's Award. Demonstrated strengths in team organization, creative problem-solving, and learning quickly and independently.

Experience

Independent Software Development Projects

- Built personal portfolio website using Astro, TypeScript, and Tailwind CSS
- Lockin.click - Next-generation coding assessment platform. React, Ant Design, Django/Python, PostgreSQL.
- Additional projects and games available at: github.com/michal-ilyayev

Web Development Intern, NEMAL Technologies

July 2024 - October 2024

- Worked with an experienced development team to develop and maintain client-facing web applications.
- Assisted in UI/UX design and implemented responsive, user-friendly interfaces using Astro, React, and Tailwind CSS.
- Supported website updates and contributed to layout, accessibility, and performance improvements.

Swimming Instructor

June 2023 - August 2023

- Taught children between the ages of 3 and 12 essential swimming techniques and water safety practices.
 - Adapted lessons to different learning levels, ensuring a safe and positive experience for all students.
-
